Before Our First Visit

I would like you and other decision-making family members to spend some time planning the feeling and look that you want to achieve in your finished room(s).

WE USE COLOR TO MAXIMIZE THE LOOK AND FEEL OF EACH ROOM

Color is such an integral element of design in a room. Therefore, I want to make sure you understand the purpose behind each question. For your finished space, color will do one of three things. It will...

- **ADVANCE:** Take up visual space and be noticed. An example would be red walls and white furnishings.
- **RECEDE:** Allow all the other elements of design to be highlighted. An example would be white walls and reds furnishings.
- **BLEND:** Make choppy spaces, too many doors or hallways, feel good by blending tone-on-tone combinations together. An example would be taupe walls and furnishings with soft accessories that all blend together.

Thank you for taking the time to prepare for you Dewey Color Consultation. Our goal is to make your home an expression of you! Planning ahead creates a more thorough mindset and diminishes friction from other family members. Also, visit www.WeMakeColorEasy.com and take the FREE color test. We'll discuss your color selections when I arrive.

PLEASE FILL OUT THE ROOMS QUESTIONNAIRE AND FAX OR EMAIL IT 24 HOURS BEFORE OUR MEETING. THANK YOU IN ADVANCE!

ROOM ONE

Room Name: _____

1. What carpets, furniture, or accessories do you want to replace? (List items as all, all except..., or by item.)

2. What do you want to add or change?

3. What style or blend of styles would you enjoy introducing into your room? (Flooring, furniture, walls, windows, accessories, lighting.)

4. List a problem or issue with this room.

5. List the concerns of others. (I.e. Partner, children, or parents.)

6. What do you do most in this room? For example sit, work, eat, watch TV.

7. Color Preference: List the colors in this room that you enjoy most. If applicable, also ask others who use the room. Have them select a color around them that makes them feel good. An accessory, wall color or fabric color that they prefer.

8. Where in this room do you prefer to see color? On the walls? Furniture? Accessories? Window treatments?
